Eaton Micro Data Center

iCube

Eaton iCube

Eaton Micro Data Center (MDC), known as Eaton iCube, provides power supply, power distribution, thermal energy management, environmental monitoring, system connection, remote and distributed management in one system.

Eaton iCube provides an "all-in-one" or an integrated solution to users with high reliability, low energy consumption, easy maintenance, and high scalability.

All components of the Eaton iCube are integrated and configured at factory before shipping to the customer's site. The on-site set up can be applied even at remote or distributed locations.

Applications

- Finance, insurance, securities (branches and business nodes)
- Government digital systems, educational and medical institution computer rooms
- Transport, shipping, commercial retail (computer rooms and branch nodes)
- Computer rooms of large-sized enterprise branches and small and medium-sized enterprises
- Telecommunications, 5G computer rooms
- Edge computing

iCube Core Values

Quick Deployment

- Standardized design with configurable options tailored to your needs
- Pre-configuration saves more than 65% time on on-site installation compared to conventional solutions
- 1-hour fast installation for single rack
- Centralised monitoring system with a single interface to easily manage your infrastructure

Remote Monitoring & Management

- One interface to see all infrastructure status and IT environments
- SNMP connectivity with Cybersecurity
- Web page/APP for remote monitoring
- Faster troubleshooting with direct one-stop service to reduce downtime

High Reliability

- Reduced dust and noise due to fully enclosed hot and cold aisles design
- Smart door system for temperature control and emergency heat dissipation
- Fire protection and earthquake-resistant
- Supports low-load dehumidification which greatly reduces the risk of condensation in the cabinet
- Comply with industry standard/certification to ensure a safe and reliable system
- Supports multiple configurations of single rack, N+1 redundancy, 2N redundancy to minimize downtime

Cost Effective

- Prefabrication and modular construction saves on-site installation cost
- In-rack cooling system eliminates the need for room-level cooling system and cooling loss thus reducing total infrastructure costs
- Saves electricity bills with PUE* as low as 1.34
- Unified system saves communication cost

$$* \text{ PUE} = \frac{\text{"Total facility power"}}{\text{"IT equipment power"}}$$

* PUE or Power Usage Effectiveness refers to a way to benchmark datacenter's energy efficiency

The key to Edge Computing

Micro Data Center provides all-in-one data center infrastructure solution sized to meet your requirements

SECURE RACK
- IP50 protection, earthquake rated, separates noise and dust
- Known to bear 20% higher load than market standard
- Intelligent door lock and release

PRECISION COOLING
- CE certified in-rack air-conditioning circulates air quickly due to proximity to heat sources

PRE-ASSEMBLY, WIRING
- Except for load equipment, all structures in the cabinet are factory prefabricated and preinstalled

DYNAMIC MONITORING
- Built-in sensors track environmental parameters and provide timely alerts

POWER PROTECTION
- High efficiency UPS provides best in class protection for all your critical applications

INTELLIGENT MANAGEMENT
- Remotely manage all aspects of the system and components via web or phone application
- Interactive LCD provides info and control at your fingertips

Standard single rack

System Size (W*D*H)-mm	600*1200*2000
Power input	220/230/240VAC, 50/60Hz, 1Ph+N+PE
Enclosure type	Enclosed cold and hot aisle Glass front door + solid metal rear door
Color	RAL9005-Black
System IP rating	IP50
UPS rating	3kVA/6kVA/10kVA
Recommended IT load	Integrated DX 3.5kW: 0.3~3kW Split DX 4.2kW: 0.9~3.5kW
Available U space	28U-32U
Cooling	Integrated DX 3.5kW Split DX 4.2kW
PDU outlets	1~2x Basic 20*C13 + 4*C19
User interface	10.1-inch touchscreen display
Connectivity	SNMP/HTTP
Remote monitoring	PC end, mobile APP
Sensor included	1x Smoke / 1x Water Leakage / 1x Temperature / Humidity
Options	Fire suppression kit/air chimney/intelligent PDU/ATS/EBM/BMS...etc *

* Please contact local sales representative

SECURE RACK

- IP50 protection, earthquake rated
- Can bear 20% higher load than other brands
- Glass front door + metal rear door
- Intelligent electrical door lock and release

PREFAB POWER DISTRIBUTION

- Infrastructure devices in the cabinet are factory preinstalled and pre-wired
- Intelligent PDM to track the load and PUE

POWER PROTECTION

- High efficiency UPS (3-10kVA) provides best in class protection for all your critical applications
- Supports Lithium-ion compatible UPS

FIRE SUPPRESSION KIT

- 1U Rack mounted
- Novec1230 fire extinguisher
- Environmental friendly

INTELLIGENT MANAGEMENT

- SNMP connectivity
- Remotely manage via internet Web or phone APP
- 10.1" touchscreen LCD display provides information and control at your fingertips
- Cybersecurity passed

DYNAMIC MONITORING

- Built in sensors track environmental parameters and provides timely alerts
- Temperature and humidity sensors to track environment status
- Smoke and water leakage sensors to prevent any environment risk
- Status lighting system – 3 colors

PRECISION COOLING

- CE certified in-rack air-conditioning circulates air quickly due to proximity to heat sources.
- R410A environment friendly refrigerant
- Have Split and Integrated option
- VSD compressor + EC fan
- Compatible for both gravity drain and condensate pump
- Evaporative free drainage available for integrated cooling

Multiple rack

System Size (W*D*H)-mm	(1800~4200)*1400*2000
Rack quantity	3~7
Power input	380/400/415VAC, 50/60Hz, 3Ph+N+PE
Enclosure type	Enclosed cold and hot aisle Glass front door + solid metal rear door
Color	RAL9005-Black
System IP rating	IP50
UPS rating	10kVA~40kVA
Recommended IT load	7~21kW
Cooling	Split DX 8.1kW
PDU outlets	Basic 20*C13 + 4*C19 (1 per main rack / 2 per IT rack)
User interface	10.1-inch touchscreen display
Connectivity	SNMP/HTTP
Remote monitoring	PC end, mobile APP
Sensor included	1~2x Smoke / 1x Water Leakage / 1x Temperature/Humidity (per rack)
Options	Fire suppression kit/air chimney/intelligent PDU/ATS/EBM/BMS...etc *

* Please contact local sales representative

SECURE RACK

- Cold + Hot Aisle (contained)
- IP50 protection, earthquake rated
- Glass front door + metal rear door
- Intelligent electrical door lock and release
- UP to 7 Racks

PREFAB POWER DISTRIBUTION

- Infrastructure devices in the cabinet are factory pre-installed and pre-wired
- Intelligent PDM to track the load and PUE

POWER PROTECTION

- High efficiency UPS (10~20KVA) provides best in class protection for all your critical applications

INTELLIGENT MANAGEMENT

- 10.1" touchscreen LCD display provides information and control at your fingertips
- Remotely manage via internet Web or phone APP
- SNMP connectivity
- Cybersecurity passed
- Built-in sensors (Temperature/ Humidity, Smoke, Water Leakage)
- Status lighting system – 3 colors

PRECISION COOLING

- CE certified in-rack air-conditioning
- 8.1kW split system
- VSD compressor + EC fan
- R410A environment friendly refrigerant
- Compatible for both gravity drain and condensate pump

Integrated cooling unit

Basic Feature

- 3 capacity levels: 3.5kW/4.2kW/8.1kW @ 35C return air and 35C ambient temperature
- VSD compressor + EC fan to accommodate both 50/60 Hz
- EEV to provide more precise control
- R410A environment friendly refrigerant
- Compatible for both gravity drain and condensate pump
- CE certified

	3.5kW Integrated	4.2kW Split	8.1kW Split
